

NEW SWITCH COVERS FOR THE CESSNA TWINS

Replace the faded, dirty and missing toggle Switch Covers in your **Twin Cessna**, Conquest, Caravan or Citation with bright new Switch Covers.

JTA offers replacement White, Black, Red, Green and Dark Blue Switch Covers that fit on practically all typical "toggle style" switches in Cessna Twins, Conquests, Caravans and Citations. For Piston Twins, JTA suggests placing Four (4) Red Covers on the Magnetos (think Hot), Three (3) Black covers for the Battery and two Alternators (Easy to see & looks great next to the Red Mags). The remainder – White. (Green or Blue optional for Delco Equipment in all Cessnas). Covers for the Mini-Switches (i.e., Prop Sync, Audio Panels, Wing Lockers (Nacelle) Fuel Transfer Pumps, Digital Clocks, Dual DME or XPD, etc., are also available.

MINI: White _____ Black _____ Red _____	\$ 0.50 each	_____

Colored Circuit Breaker Collars aids in quickly identifying important Circuit Breakers and makes pulling Circuit Breakers easier. An inexpensive safety must. When you need to pull an Autopilot or Electric Trim Circuit Breaker in a hurry, hunting for the right Circuit Breaker can be critical. Order in conjunction with new Switch Covers to add to cockpit appearance and safety.

Circuit Breakers White _____ Red _____ Green _____ Yellow _____	\$ 4.00 each	_____
